Aqua STEM Units use 3-Dimensional Science principles to help students ask questions, define problems, and understand real world solutions.

**3-D Learning and Systems Thinking!**

Online Professional Development Academy

For 6th – 12th Grade Teachers

This **online** Workshop series will prepare teachers to use four simple systems thinking patterns - making **Distinctions**, seeing part-whole **Systems**, uncovering **Relationships**, understanding **Perspectives** to engage students in real world STEM learning.

Dates for completion are June 3rd, 4th and 5th. 12-Hours of CEUs.

Format: Live facilitated sessions, small group work, and individual assignments.

**REGISTER HERE:** Aqua STEM Registration

**PLEASE NOTE:** This Workshop is a Prerequisite for ALL Aqua STEM Teacher Academies.
